

Tutor Booking System Plan

➤ Parent item	<u>Tutor Booking Implementation</u>
⚙ Status	Not started

Core Concept

- Tutors create a **listing** (e.g., “Eleven Plus Exams Tuition” or “Piano Lessons”).
- Each session is **1 hour**.
- Students book individual sessions.
- Learning continuity is maintained through:
 - Session history
 - Tutor notes
 - Repeat bookings

Availability System

Tutors will:

- Set **weekly availability**
 - Example: Monday 9–11 AM and 5–7 PM
- Add exception dates (holidays, unavailable days) (Later TODO)

Students will:

- Select a date
- See only available 1-hour slots
- Book a time slot

The system will:

- Prevent double booking

- Automatically handle time zones
-

Timezone Handling

- All users (students & tutors) will have a saved timezone.
 - Availability is set in tutor's local time.
 - All bookings are stored internally in UTC (global standard time).
 - Students see times in their own local timezone.
 - Tutors see times in their own local timezone.
-

Booking & Session Flow

When a student books:

1. System checks availability
 2. Student completes payment
 3. Booking is confirmed
 4. Tutor is notified
-

Online Class (Zoom / Teams)

- Tutor will add a **unique Zoom link per booking**
 - Students can only see their own session link
 - No shared permanent Zoom room (to prevent privacy issues)
-

Payment Structure

- Student pays the full session amount.
- Payment goes to PSC (platform owner).

- Platform deducts commission.
 - Tutor earnings are recorded in their wallet.
 - Tutor can request withdrawal.
 - Admin approves and pays manually.
-

Tutor Wallet System

Each tutor will have:

- Available balance
 - Transaction history
 - Withdrawal request option
-

Dashboards

Admin Dashboard

- Withdrawal requests
- Booking statistics

later to do

- Total revenue
 - Platform commission earned
 - Tutor earnings overview
-

Tutor Dashboard

- Weekly availability settings
- Upcoming sessions

- Past sessions
 - Session notes
 - Earnings summary
 - Withdrawal requests
-

Student Dashboard

- Upcoming sessions
 - Past sessions
 - Join session button
 - Booking history
 - Session notes (if shared)
-
